

Code Platoon (codeplatoon.org), an award winning non-profit software training academy for veterans, active duty service members, and military spouses, offers a 14 week, full-time training program that prepares our students to become professional software developers. Software development is a high demand career opportunity.

Participation Options:

Code Platoon offers an in-person option, with classes held in Chicago, IL. Concurrently, there is a live remote option for students located outside of Chicago. Students participating in the live remote option are required to participate in lectures and projects in real time and alongside our in-person classes. Remote students must have a reliable internet connection and a computer to successfully participate. Classes are conducted from 9am to 5:30pm, CST, Monday through Friday.

Tuition

Tuition is \$13,000.

Service members who are approved to participate in our live remote program through Skillbridge will receive a full tuition scholarship and will not be required to pay anything.

Training and Curriculum Overview:

Technical Skills taught (Web Development with Python and Javascript), Career Prep (LinkedIn & resume prep, behavioral, technical and whiteboarding interview prep), access to industry-leading mentors and TAs.

Post-Graduation: AWS certification, CP certification

WHERE ARE OUR ALUMNI WORKING?

Code Platoon graduates are working as software developers, web developers, quality assurance analysts, and dev ops engineers at companies like Underwriter Laboratories, Chicago Trading Company, Sprout Social, DRW, Power Reviews, Echo, and many others. See the list: <https://www.codeplatoon.org/corporate-outreach/>

Our graduates working in software development reported a median salary of \$65,000 within 6 months of graduation, which aligns with that of computer science students graduating from four-year universities, and \$100,000 within 2 years of graduation.
